Summary of the Office Action

Claims 11-10 and 41-60 stand rejected.

Summary of the Office Action

Claims 1, 43, 44, 57, and 60 are amended.

Remarks

The Office Action of August 22 cites *Tal* (U.S. Patent No. D416,001) as the primary reference for rejecting the pending claims. Applicant concedes that *Tal* shows a design that is one embodiment of the invention, since *Tal* and the present application share common assignee, and stem from common product lines. But as a design patent, *Tal* does not teach or show details in Applicant's invention.

One detail not taught by *Tal* is the midframe, and specifically, the midframe on which the slot is formed. For this reason, Applicant request reconsideration of the amended claims.

CONCLUSION

Applicants respectfully submit that all pending claims are patentable over the art of record. Accordingly, a Notice of Allowance is requested by Applicants. Applicants urge the Examiner to telephone Applicants' attorney at (408) 551-6632 if any issues

remain that preclude allowance of the application. The Office is given permission to charge any unpaid fees to Applicants' deposit account (50-1914).

Respectfully submitted,
